

## ORCHESTRATE OUR FUTURE

### MEMBERS ARE IMPORTANT

Members are the most important part of any organization.

Without them, your Chapter would have no existence.

Your meeting place would be empty, silent.

Your leaders would stand alone, without the followers they must have if they are to carry out their duties, your Constitution and your Bylaws. All of your resolutions would be reduced to so many words, lacking the human factor that gives them life.

Members make an organization. If they are irresponsible, incompetent, unethical, unworthy, they can break the organization.

There are two kinds of members, new and old. Each has a definite place in the organization structure. Each has a particular contribution to make and each requires special handling.

Be a productive member of your Chapter, help your Chapter have Harmony and Love.

**New members don't just happen it takes work to spread  
the word, recruit and welcome each new member.**
